

NHC Assisted Bathing

Introduction

Established in 2002, NHC Group manufacture and supply a large range of soft furnishings and nursing equipment to the UK care sector. We also offer full FF&E installation and LOLER maintenance and servicing of nursing equipment.

Assisted Bath Surveys

Below are some of the key offerings we will benefit from when partnering with NHC:

- We check a new bath can be fitted within regulation before you place any orders
- It's Free - we don't charge for this service if you order your bath from NHC Group
- We advise on which bath would be most suitable
- Offer drawings and plans so you can easily visualize your bathroom layout

What the service includes:

- Onsite visit
- Check bath will fit through all doorways etc
- Measure the bathroom
- Check what facilities are in place
- Advise on any remedial works that need to be carried out before installation.
- Check the water & electric supply
- Decommission of the old bath if there is one

Assisted Bath Removal & Installation

- Free onsite bathroom survey
- Painless - we look after the process end-to-end (no subcontractors)
- Trade Pricing - we manufacture all our own baths
- Work Tidy - we remove all rubbish from site
- No downtime - we leave the bath ready for you to use
- Disconnect the water
- Disconnect the power supply
- Remove the old bath
- Dispose of the old bath
- Deliver a new bath
- Connect the water
- Connect to the electric power supply
- Commission & LOLER certify the new bath
- If the removal and refitting of the bath is going to damage your floor or leave visible floorboards or flooring we can lay a new vinyl floor to save this inconvenience

Installation and Aftersales

The NHC team will look after all the aspects of your purchase from enquiry to install. We employ a team of fully qualified LOLER engineers throughout the UK and Northern Ireland who will carry out site surveys, pre-installation visits, delivery, install and commission. Once installed these items will be covered by a LOLER certificate and ongoing service agreements can be arranged. All replacement parts are available from our service department.
