

# Serenity 1200 Auto-Weighing Digital Bariatric Alternating Pressure Mattress - Very High Risk

The Serenity 1200 Auto Mattress is a state-of-the-art care solution specifically designed for larger residents at very high risk of developing pressure sores (grades 3-4). This innovative mattress is equipped with advanced auto-sensing technology, diligently measuring the resident's weight every 12 hours. Embedded in a durable 10-inch cell-on-cell construction, it not only offers unparalleled support but also supreme comfort.

Uniquely adaptive, the Serenity 1200 Auto seamlessly adjusts to each resident's weight, utilising real-time data to provide tailored pressure management. This not only personalises care for each resident but also significantly reduces the workload for nursing staff, streamlining the care process. Furthermore, its versatile therapeutic modes are specifically developed to meet a wide range of care needs, ensuring high-quality, continuous resident comfort and support.

## STANDARD FEATURES

**Design & Comfort:** 20-cell design providing optimal pressure relief and sustained comfort.

**Safety Assured:** CPR Function for rapid deflation in emergencies.

**Ease of Use:** Digital pump with auto-sensing technology for accurate pressure adjustments.

## KEY FEATURES

**Auto-Weigh Technology:** Automatically measures the resident's weight every 12 hours and accurately adjusts the air pressure based on the real-time weight data, ensuring continuous and personalised support.

**Innovative Comfort:** Pillow Function with three static head cells for targeted support, enhancing the sleep quality of residents.

**Digital Excellence & Security:** The digital pump features a user-friendly LED weight setting display for precise control over comfort settings.

**Reliable Warranty:** 2-year warranty for guaranteed quality and long-term service.

**Zone Cell Deflation:** Facilitates easy maintenance without disturbing the resident's comfort, ensuring continuous support even during cell repair.

## SPECIFICATION

### PUMP

Air Output:	12 litres/min
Control Interface:	Digital
Pressure Range:	20-65mmHg, Adjustable
Cycle Time:	Adjustable (10/15/20/25 min)
Additional Features:	Including Alarms for Low Pressure, Power Failure and Various Modes

### MATTRESS

Size Options:	2030mm x 1060mm x 260mm 2030mm x 1200mm x 260mm 2030mm x 1350mm x 260mm
Cells:	20 Air Cells, 10" Cell-on-Cell Design
Material:	Nylon/PU Cover, Nylon/TPU Cells
Max User Weight:	Up to 400 kg
